ORGANIZATION PROPOSAL

Entrepreneurship: An Attempt Towards Poverty Alleviation A Case Study of Muungano Foundation Tanzania Project in Mwanza.

1.0 PROJECT SUMMARY:

The project aims to alleviate unemployment of the youth by providing skills for self-employment. The main objective of the project is help the youth to design self-help projects so as to raise their income. Girls will be given priority during registration due to the fact that most of them are marginalized by communities. The future plans of project aims to main stream the project to the Ministry of Education, Ministry of work and youth. This is a strategy to avoid donor dependence and also to cover the rest of regions in Tanzania.

2.0 INTRODUCTION

Muungano Foundation Tanzania (MUFT) was established on 18th November 2021 under Non-Government Organization act 2002 section 11 (1) and 17 (2) of Act No 24 of 2002 with registration number 2554. Since its inception the Foundation has worked tooth and nail to address the problems facing youth and children in communities in Mwanza by supporting them in terms of providing education and life skills. However, the number of clients who need support from the Foundation increased to the extent that the resources available do not meet the demand

Regardless of limited resources the Foundation managed to train girls in Tailoring by employing trainers to deliver quality training. The girls were provided with sewing machines with tool kits to enable them to practice sewing. On the other hand we have Computer Lab where a total number of Learners are trained in computer use; we have a total number of 10 Computer in the Lab.

Computer Training session

The room can accommodate more computers to enable more learners to be trained, for the safety of Computers and comfort for the learners the computer Lab needs two air conditions to control heat in the room.

Muungano Training Centre is the only Centre in Mwanza which is located in the learning institution. Learners can access other academic assistance due to availability of the teaching staff and library. Furthermore the Centre is located along the main road from Mwanza therefore the learners can reach the centre easily.

MUFT works with the poorest of the poor. We sponsor some learners due to poverty level of their parents the cost of tailoring training for each participant in six months is 750,000/= Tshs we have 16 students who are sponsored by the Centre.

Tailoring Class Session

Furthermore the Centre sponsors students in Primary and secondary education whereby we have 11 students, the cost of each student per year is Tshs 2,500,000/=

SIGNIFICANCE OF THE PROJECT:

Currently the country is facing the problem of unemployment. This means the problem affects the youth who graduates from different education institutions. The type of education provided in school does not reflect the environment in societies that means the youth remain to depend on the parents support. The project aim to introduce a paradigm shift from teaching academic subject alone, instead the learners are taught and practice entrepreneurship skills such as tailoring and computer skills to simplify the teaching and learning process by accessing information worldwide. The project aims at introducing more skills such as carpentry, masonry, poultry, fishery and horticulture. The type of approach should be implemented in large scale in Tanzania so as to minimize the unemployment problem in Tanzania.

OBJECTIVES FOR THE ORGANIZATION

1. Increase household income through self-help projects hence alleviate household poverty among the marginalized communities
2. Improve access to education and psycho- social well-being of marginalized children and youth
3. To advocate for a society whereby children and youth have equal rights and opportunities for growth and development.
4. To create social stability and awareness on reproductive issues, HIV AIDS and other adolescent issues, environment and drug abuse

THE SOURCE OF FUND:

Since the inception of the Muungano Foundation we have been supported by Messa Secondary schools based in Mwanza region. However, The Institution has many commitments of the school to the extent that sometime it become impossible to support our activities on time thus why we are looking for other sources of fund.

LONG TERM PROJECT PLAN:

Muungano Foundation Tanzania (MUFT) is working hard to seek assistance from other stakeholders like other Non-government organizations dealing with children such as Global Affairs Canada, Plan International and UNICEF. In addition the Foundation is working closely with the Ministry of education,

Ministry of Women, Children and Youth so that at the end of the Project period the Project will be handled to the government. The lessons learnt during the implementation period will be the base in scaling up of the project. This will help to scale up the project to the rest of regions in Tanzania

CONCLUSION:

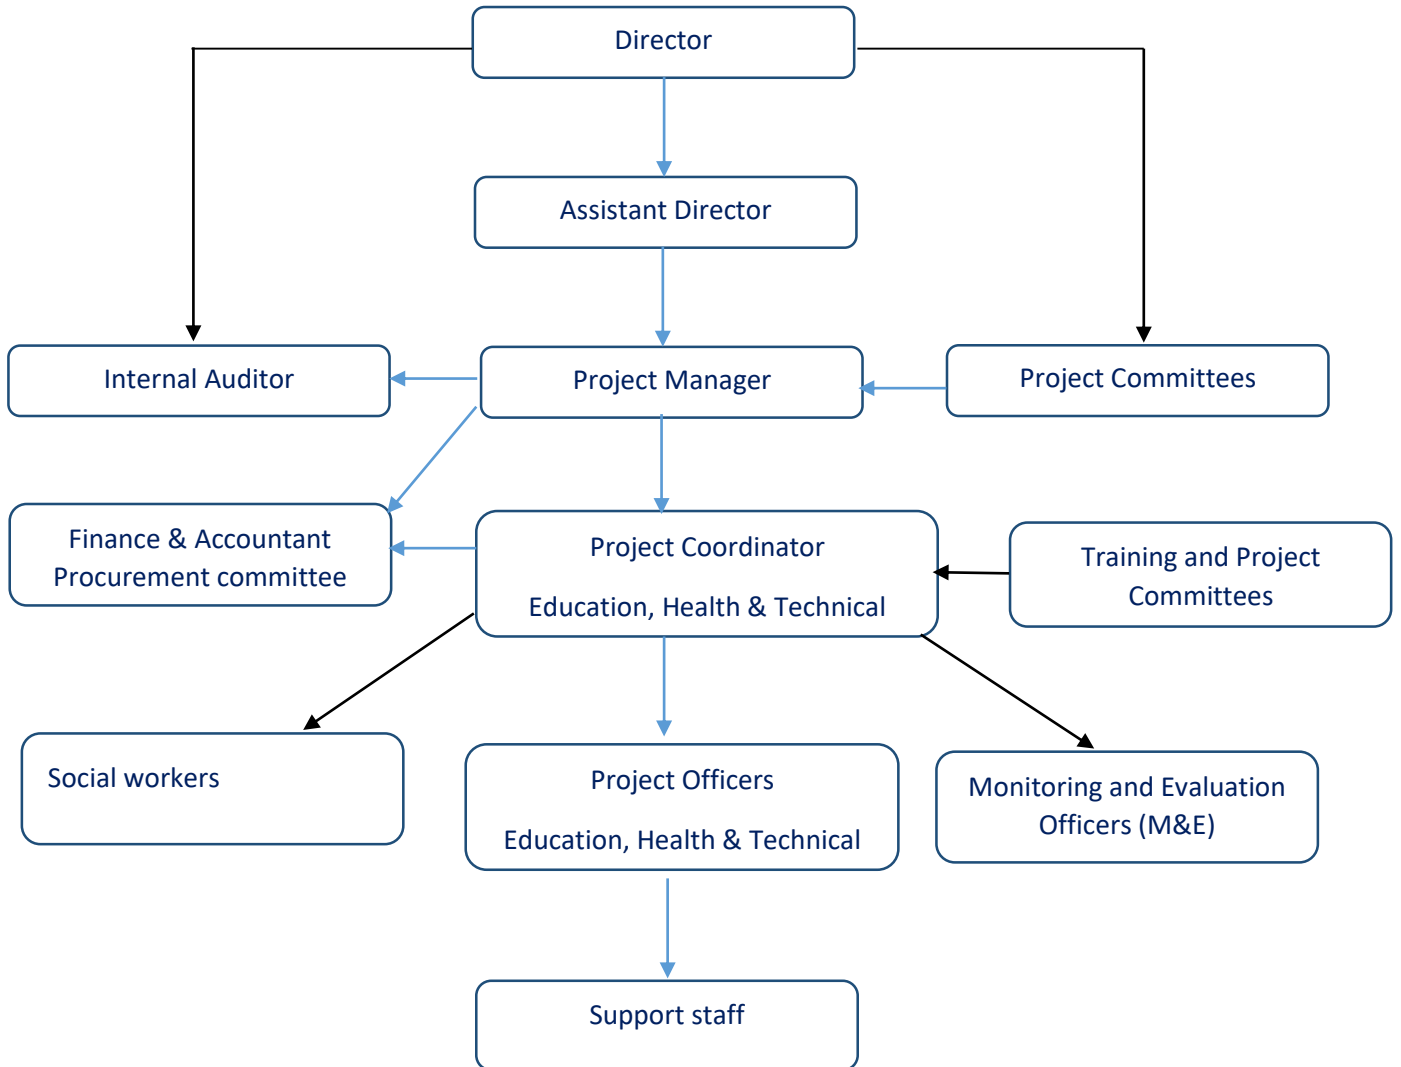

Empowering youth is not just a moral imperative, but a crucial step towards creating a better and more promising future for the youth. As young individuals represent the backbone of any society, ensuring their skills are financed to fostering quality training and opportunity in the labor market.

By investing in entrepreneurship we can equip youth with the necessary tools and skills to overcome challenges and thrive. Emphasizing their participation in decision-making processes will grant them a sense of agency, helping to create a society that is more inclusive and just. Additionally, eliminating unemployment in community will enable youth to focus on their growth and development, ultimately leading to a more capable and innovative generation.
